

Audio Publishers Association

PIRACY POLICY

Recognizing that the growing popularity of audiobooks incurs a corresponding growth in online piracy, the APA has drafted this statement for its members' use.

The law prohibits the unlawful copying or reproduction of audiobooks to protect the right of artists and artisans to make a living from their work.

In the US and elsewhere, copyright infringement is punishable by heavy fines and jail time.

Respect the art and respect the law.

Please do not copy or reproduce this audiobook without permission, and please do not download audiobooks from known piracy sites.

Revised 5/15/19
